

WE TOGETHER

Our association has been active in Chemnitz since 1990 with projects in migration-, social- and youth work. We are committed to a tolerant, diverse society in which everyone can develop regardless of their background.

Get involved with us for a cosmopolitan, open-minded Chemnitz - as a volunteer, an active member or a funding member.

What to expect in the association?

- Insights into the work of a social organization and information on migration policy related topics
- Planning and realization of events or projects
- contacts to network partners
- events and workshops organized by the association
- free or discounted access to rooms and materials
- Possibility to participate in society: Voting rights in membership assemblies or as an association representative in committees

DONATIONS

It is not always possible to cope with or finance the situations, requirements or wishes we encounter daily within the framework of project work.

Numerous volunteer initiatives support the association in a variety of ways. Both the project work and the volunteer engagements can continue through donations where others stop due to financial reasons.

Therefore, we require your donations!
